**JFK Medical Center Hosts Free Lecture For Women  
Cervical Cancer Awareness: Prevention Matters**

Edison, NJ - In 2008, more than 11,000 women were diagnosed with Cervical Cancer. It forms in tissues of the cervix and, typically, is a slow growing cancer that may not present symptoms. The good news is that cervical cancer can be diagnosed with a regular pap smear test performed by your gynecologist.

Anything that increases a person's chance of developing a disease is called a risk factor. Some risk factors for cervical cancer can be avoided, but many cannot. Prevention is a key element to beating this disease.

JFK Medical Center invites you to attend a free lecture to learn about the disease and the steps women can take toward prevention.

**Topic:** Cervical Cancer Awareness: Prevention Matters  
**Date:** Tuesday - January 27, 2009  
**Time:** 6:00 PM  
**Location:** JFK Medical Center – Conference Center Classrooms  
(Across the street from the main hospital)  
70 James Street – Edison, NJ 08820  
**Speaker:** Dr. Sung Chae, Family Medicine Physician, JFK Medical Center

###

JFK Medical Center, an affiliate of Solaris Health System, is a 535-bed full-service, acute care hospital, consisting of The Anthony M. Yelencis Community Hospital and the adjacent JFK Johnson Rehabilitative Institute. Located in the heart of Edison, NJ, it has remained at the forefront of quality care in the region since its inception in 1967. Today, JFK accommodates more than 20,000 admissions, 3,000 births and 50,000 Emergency Room visits on a yearly basis. The Medical Center features a complete array of services, including general surgery, emergency medicine, mental health, orthopedics, maternity and pediatric care. It is home to the New Jersey Neuroscience Institute, Regional Cancer Center, Haven Hospice, JFK Imaging Center and the JFK Family Practice Center. Affiliated with UMDNJ -Robert Wood Johnson Medical School and Seton Hall University School of Graduate Medical Education, JFK offers residency programs in physical and rehabilitation medicine, family practice and dentistry.
